Order Declaring
Unusual Fire Danger
And Imposing Fireworks Ban in the
City of North Bonneville

Pursuant to North Bonneville Municipal Code Chapter 9.20.030, as the Fire Chief so designated by the Mayor, and in order to avoid any uncertainty, I hereby declare that there is an unusual fire danger in the City of North Bonneville. This based on the following:

1. Record setting triple digit temperatures raising heat index as high as 108 degrees;
2. Lack of humidity creating extreme dry conditions of grasses, forest duff, and other ground coverings;
3. Lack of rainfall in the past two week and no predicted rainfall for the next 10 days.

Further, pursuant to the authority within that chapter, and with full concurrence of the Mayor, I **hereby absolutely prohibit** the use of fireworks within the City of North Bonneville including such things as Japanese Lanterns (floating fire fueled lanterns). This fireworks ban is effective immediately and remains in effect until July 5, 2021 12:01 a.m.

Signed this 29th of June 2021
