This proposal is a T&M Estimate. Actual costs could be higher or lower than estimated costs. Billing will be T&M based on the actual conditions encountered during the project. Circumstances including, but not necessarily limited to, changes in the scope of work or schedule; amounts, degree, nature, or characteristics of the fouling or material to be removed; coordination with other contractors in the area; or delay or waiting time beyond the direct control of CCS could result in charges that could affect the estimated project costs. Estimated costs do not include any taxes, permits or fees unless specifically listed.
