Proposal for CBD Sub-Directories:

This proposal is for three sub-directory signs to place at each of the city's business areas.

Proposal "C": Similar to an earlier design I submitted to the committee...not really applicable in the main directory....but a viable option for the sub-directories. Sign would consist of an 18 inch by 4 foot slab, approx 4" thick, attached (notched in) to main large log in a "cantilevered fashion". (see diagram). Slab will be attached with glue and bolts. Log will be approx. 2 feet in diameter and 9 or 10 feet tall (Redwood) and set in concrete with rebar reinforcement. A Small support slab is to be mounted at bottom of log for chain support. Small individual biz signs will be attached to stationary chain attached at top and bottom. Signs will bolt to the chain. Main CBD area to be depicted on main slab in carved letters. All font and color options apply. Individual small biz signs will be charged for separately. Bid includes all materials, hardware and equipment to complete and install project.

Total cost of one Plan "C" sub-directory:

\$1600.00

Total cost of three Plan "C" sub-directories:

\$4800.00

Individual small biz sign cost:

\$50.00 each
